The J3402 is another example of BodyBilt's commitment of providing ergonomic solutions to meet a variety of workplace needs. The #7 Seat offers a comfortable choice with moderate contouring that accommodates the largest percentile of workers

The J3402 model features a compact back, which is 3" narrower in width and 2" shorter in length than the 3500 Series back.

This chair is ideally suited for the user with a more compact body-frame.
